WAYS TO SAVE

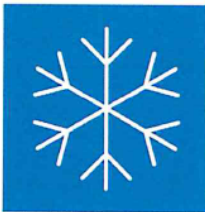

INTERIOR LED LIGHTING

Upgrading lighting is a quick and easy way to reduce your electric bill now and for years to come. Get cash incentives when you upgrade to help offset your out-of-pocket costs.

HVAC AND HVAC CONTROLS

Heating and cooling can account for as much as 40% of a business's total energy use. Save big on energy costs, improve your facility's energy efficiency and receive cash incentives by upgrading to energy-efficient HVAC and HVAC controls.

COMMERCIAL COOKING AND REFRIGERATION

BizSavers offers cash incentives on upgrading to energy-efficient appliances, such as exhaust hoods, electric steamers and certified ENERGY STAR[®] refrigerator or freezer cases.
